

K-Love is an important part of our lives, it is the only radio station we listen to without being worried that my children will hear inappropriate things. It is an uplifting radio station that always plays music that we can relate to. It will be devastating should K-Love be taken off the airways. The clear beautiful sound that comes from the FM station fills our cars and home and lives. Songs that the children sing to that they learn in church. The children always ask to put the station on K-Love if it is on NPR. K-Love may be the only gospel some people hear. It has changed lives forever, please do not take our K-Love away!
